

Historic Preservation MS
2017-2018 Student Learning Outcomes

Outcome	Assessment Methods
1	<i>Students will be prepared to complete original, independent research relevant to the practice of historic preservation and disseminate the results effectively through both written and oral presentations.</i>
2	<i>Students demonstrate the ability to document historical resources in the built environment and demonstrate the ability to complete field work and analysis necessary to meet accepted state and national standards in architectural and cultural resource assessments.</i>
3	<i>Students will have the ability to complete conditions assessments of historic buildings, structures and objects.</i>
